

# COMMUNICATING SOCIAL INSECT SCIENCE

WITH:  
DR. BARRETT KLEIN!!  
DR. KAITLIN BAUDIER!!

FROM THE PRESENTERS: “If curious about ways to convey the science, complexity, beauty, and wonder of social insects to the uninitiated, our workshop will share a few of our approaches to writing about insects, creating art with insects, and presenting to the public. Bring your passion for social insects and we can consider ways for you to channel their stories to reach the waiting masses (of humans).”

Join us on Zoom and bring your lunch!
